SJIB Circular 04/2024

12 March 2024

To: All SJIB and SELECT Members

Dear Sir/Madam,

**Changes to the ECS Health, Safety and Environmental Assessment
Effective Monday, 6 May 2024**

The ECS Steering Committee recently reviewed the Fire and Emergency questions within the ECS Health, Safety and Environmental Assessment. The decision was made to make amendments to existing questions and introduce new ones, which focus on fire safety in buildings.

The purpose of these changes is for alignment with wider industry competence requirements for fire safety in buildings and to increase the awareness of broader fire safety topics and interaction between occupations.

The updated question bank for the ECS Health, Safety and Environmental Assessment will be effective from Monday, 6 May 2024.

Please visit sjib.org.uk/ecs-hse-assessment/ecs-question-and-answer-booklet to access the updated ECS Health, Safety and Environmental Question and Answer Booklet.

Yours faithfully,

Fiona Harper
The Secretary
